

Microsoft Azure Everywhere Program

Take your cloud strategy to the next level...

Microsoft is teaming up with the top Azure partners to help your team with the cloud. Microsoft & T4S Partners have joined as part of the Azure Everywhere program to make your business cloud focused. You and your team can spend an entire week with a senior architect from our Cloud Enablement team

Use the Azure Everywhere program however you like: explore Azure, plan implementation, build a POC or build a custom engagement to get your questions answered and overcome business and IT challenges with the cloud.

Large projects may qualify for 2 or 3 weeks of consulting. The Azure Everywhere program is funded by Microsoft and delivered by T4S Partners, which makes it **cost and risk free for customers**.

Qualifying is easy. Contact us at info@t4spartners.com to find out more about the program.

Ways to Use Azure Everywhere

Plan strategy & envision innovation

Architect & design infrastructure or build a POC

Deploy solutions or migrate infrastructure

Areas to Focus on with Azure Everywhere

Start with Dev/Test, Modern Apps & Websites

Start with Active Directory or SharePoint

Customize your week to train your team, answer your questions & solve your problems

Begin your journey. Discover if you qualify at <http://t4spartners.com/azure>
